Wrapped in Avisco Cellophane

Sparkling, crystal clear cellophane has come a long way since it was used to package only luxurious items like fancy bon bons and rare perfumes. Today, cellophane is used in literally thousands of different applications by at least 60 major industries.

Much of the growth and progress of the cellophane industry is due to the fine work of Fredericksburg area people, many of them graduates of Fredericksburg area High schools. American Viscose Corporation congratulates the 1956 seniors and wishes them success.
